Security Committee

Mr. Jay Cochran, Assistant Director,
Technical Security Division, FBI
10th and Pennsylvania Avenue, N.W.
Washington, D.C. 20535

Dear Mr. Cochran:

At a recent joint meeting of the Technical Surveillance Countermeasures Subcommittee and the Research and Development Subcommittee, I reviewed briefly significant contributions to Community efforts in our field.

Certainly the contributions of the FBI during 1977 were significant. The establishment of the Interagency Telephone Laboratory, while probably the most notable and visible to the Community, should not cause to be overlooked the many other contributions and active participation of the Bureau in our endeavors. I would like to thank you for your support in making things "happen". I also would like to extend my appreciation to [redacted] for his exceptionally solid contributions. Jerry has been instrumental in helping us pursue successfully many of the more mundane aspects of our work. His professionalism, combined with his cooperative approach to all problems, reflects credit on the Bureau and on your Division.

I wish you the very best of Seasons Greetings.

Acting Chairman, Security Committee
